**When should you begin feeding Breeder Mineral?**

Chelated Breeder Mineral contains higher levels of trace minerals and vitamins. These added nutrients are essential to ensure your cow is at peak performance and ready for her next cycle, therefore promoting a higher breeding success. Breeder mineral is recommended to be fed Year Round and needs to start at least 3 Months prior to breeding to get the best results.

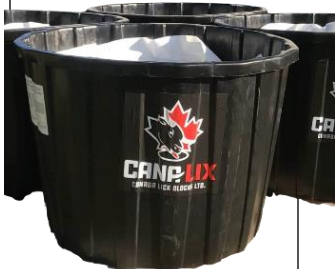

2-1 Beef Breeder Mineral 25kg: \$48.09

Sheep Breeder Mineral 25kg: \$46.39

Pallet Price: \$25 off/pallet

Mini bulk Price: \$60 off/tote

Order in quantities of 3 tonne or more to have delivery right to your yard.
